LED

hLite olarak LED teknolojisini geleceğin aydınlatma teknolojisi olarak benimsiyoruz. Yüksek enerji tüketimine çözümü LED teknolojisinde görmekteyiz. LED aydınlatma çözümleri geleneksel enkandesan lambalara göre önemli avantajlar sunmaktadır. LED lambaların, sadece 18 aylık ömre sahip geleneksel enkandesan lambalara kıyasla 25 yıla kadar uzanan ömürleri dikkate alındığında tüm satın alma maliyetini 1,5 yılda amorti ettiği görülmektedir. Enerji maliyetinde yapılan tasarruf ise çok daha fazla, çünkü LED lambalar geleneksel enkandesan lambaların ihtiyaç duyduğu enerjinin sadece %20'sini kullanır.

Neden LED lamba kullanmalıyız ?

"Aydınlatma, evde kendinizi rahat hissetmenizi sağlayacak en önemli unsurlardan biridir. LED aydınlatmanın sağladığı enerji ve maliyet tasarru arının da dışında, aydınlatmanın insan hayatında verimliliği artırdığı yönündeki bilinirlik gün geçtikçe artmaktadır. Örneğin, çalışırken bilgisayar ekranındaki yansımalar gözleri yorabilir. LED tabanlı aydınlatma çözümleri, konfor seviyesi ve performansı artıran yansımaz ışık sayesinde gözlerinize dostça yaklaşır. Aydınlatma seçeneklerini düşünürken LED aydınlatmaya öncelik verin ve hem sizin bütçenize hem de çevreye fayda sağlayan uzun ömürlü ve daha yüksek ışık kaliteli hLite LED lambalarını tercih edin.

hLite are adopted LED technology in lighting technology of the future. We are seeing the solution of high energy consumption in LED technology. LED lighting solutions, offers significant advantages over traditional incandescent lamps. Led Lamps in 1.5 years is paying off the cost of purchasing with 25 years life time if compare with traditional incandescent lamps which has 18 month life time. Also energy savings are more than other lamps. Led lamps spends only 20% of the energy which traditional incandescent lamps uses energy. Why should we use Led Technology?

Lighting is one of the most important elements for feel comfortable at home. For example; when working on the computer screen can strain the eyes of reflection. LED-based lighting solutions, meets with your eyes friendly with level of comfort and performance through light reflection. When think lightyinh options give priority to Led lightings and prefer to hLite Led Lamps which has long life time and high light quality.
